

# Stop The Unjustified Killing And Hunting Of Montana's Wolves

**Please read before signing the petition:** By signing below, you agree that the state of Montana should stop the unjustified killing of wolves, via hunting and trapping, and that they should use science to guide wolf management. They need to act responsibly and be accountable for their actions. Please see a copy of the petition for background information. *This is not a legal document* and your information will not be used for commercial purposes or given to anyone or any organizations, other than the state of Montana. The petition can also be accessed online at [www.wolfandwildlifestudies.com](http://www.wolfandwildlifestudies.com). Please DO NOT sign online if you signed below. Just one or the other. The goal is 100,000 signatures which I will take to the Governor's Office myself with the media present. Thank you for your support!
